Walker & Company, 2010. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: "On Architecture, a career-spanning collection of articles and essays, demonstrates that she has always pursued her mission with reason, elegance and wisdom. Huxtable's work remains the gold standard of criticism and not just the architectural variety because she brings to the job a rare combination of aesthetic certitude and roving curiosity. Review by review, essay by persuasive essay, she erects an impressive structure supported by the force of sheer reasonableness. She applauds economy but detests cheapness, appreciates expressivity but abhors showiness, and above all demands that a building make sense. For a colleague less than half her age, it is awesome to observe her pronouncing judgment on elements of New York City that have come to seem immemorial." New York Times Book Review "For all of Huxtable's palpable love of the art of design, she never loses sight of architecture's uniquely high stakes. Whether the topic is tall towers or building ornamentation, Frank Gehry or Donald Trump, the backdrop is the real-world implications of what takes shape. Huxtable never played the role of detached observer, the intellectual who looks with contempt on how and where most Americans live. From the start, Huxtable has expressed this better than anyone else. If we're lucky, she'll do so for some time to come." San Francisco Chronicle "She can not only make us feel a great loss when a fine building is demolished, she can make us see how valuable it is when a fine new building goes up. To her readers she conveys her own sense of architecture's fundamental importance: 'Architecture is remaking our world. Its rewards are personal and universal in a way no other art can match. Its joys are common to us all.'" American Scholar "The release of On...
