Not illustrated. 1892 Excerpt: . . . with nothing but the hygiene of common sense and climate, the patient glides into recovered health almost insensibly. I had one case of this kind, a young man who, when a child, was taken to Minnesota on account of the tubercular manifestations. After some years residence there he was advised winters in Florida and Bermuda, with summers in the mountains of New York, all without benefit; who completely recovered his health, or, rather, became a well man. This was a remarkable case; the disease developing so early in childhood, and disappearing in this climate, after so many efforts elsewhere. Dr. William A. Edwards, formerly of Philadelphia, now of San Diego, has given me the history of some interesting cases of cured laryngeal phthisis occurring in his practice since removing to California. Of the general run of cases of all varieties, our banks, stores, and business men...
